

MSDS (Material Safety Data Sheet)
Titanium Dioxide Anatase
(A501)

Section 1 : Product and Company Identification

Synonyms: Titanium Dioxide Anatase
A501

CAS No.: 13463-67-7
Molecular Weight: 79.90
Chemical Formula: TiO₂
HS Number : 32061110.00
Revise date: 2019-06-20

Producers information

Company name: Jiangsu Jinhai Hezhong Titanium Co., Ltd.
Tel: +86-512-62760915 Fax: +86-512-62990012
E-mail : postmaster@jinhaititanium.com
Home page : www.jinhaititanium.com

Section 2 : Composition/Information on Ingredients

Component :	TiO ₂
CAS number :	13463-67-7
HS Number :	32061110.00
Percentage:	≥98.0%
Hazardous :	No

Section 3 : Hazards Identification**Emergency Overview**

CAUSES IRRITATION TO EYES

NFPA Ratings (Scale 0-4): HEALTH=0 FIRE=0 REACTIVITY=0

EC Classification (Assigned):

R 36/38, EC Classification may be inconsistent with independently-researched data.

Color : white

Physical Form: powder

Odor: odorless

Major Health Hazards: respiratory irritation, eye irritation, mucous membrane irritation

POTENTIAL HEALTH EFFECTS:

Inhalation:

Short Term Exposure: no.

Long Term Exposure: same as effects reported in short term exposure.

SKIN CONTACT:

Short Term Exposure : no.

Long Term Exposure : same as effects reported in short term exposure.

EYE CONTACT:

Short Term Exposure : irritation.

Long Term Exposure : same as effects reported in short term exposure.

INGESTION:

Short Term Exposure : no.

Long Term Exposure : same as effects reported in short term exposure.

www.jinhaititanium.com

Chronic Exposure : RESULTS OF EPIDEMIOLOGY STUDY SHOWED THAT EMPLOYEES WHO HAD BEEN EXPOSED TO TITANIUM DIOXIDE PIGMENTS WERE AT NO GREATER RISK OF DEVELOPING LUNG CANCER THAN WERE EMPLOYEES WHO NOT BEEN EXPOSED TO TITANIUM DIOXIDE

CARCINOGEN STATUS:N
OSHA: N
NTP: N
IARC: N

Section 4 : First Aid Measures

Inhalation: Remove to fresh air.

Ingestion: If swallowed, give several glasses of water to drink. Vomiting may occur spontaneously, but DO NOT INDUCE! Never give anything by mouth to an unconscious person. Get medical attention.

Skin Contact: Wipe off excess material from skin then flush skin with plenty of water. Remove contaminated clothing and shoes.

Eye Contact: Immediately flush eyes with plenty of water for at least 15 minutes, lifting lower and upper eyelids occasionally.

NOTE TO PHYSICIAN: For inhalation, consider oxygen.

Section 5 : Fire Fighting Measures

Fire: Not considered to be a fire hazard. Will not burn

Explosion: Sealed containers may rupture when heated.

Fire Extinguishing Media: Use any means suitable for extinguishing surrounding fire. Water spray may be used to keep fire exposed containers cool.

Special Information: In the event of a fire, wear full protective clothing and NIOSH-approved self-contained breathing apparatus with full facepiece operated in the pressure demand or other positive pressure mode.. Sealed containers of this material may rupture at moderate temperatures (release of water vapor)..

Section 6 : Accidental Release Measures

Soil Release: Dig holding area such as lagoon, pond or pit for containment. Cover with plastic sheet or tarp to minimize spreading and protect from contact with water.

Water Release: just wash out

Occupational Release: Ventilate area of leak or spill. Keep unnecessary and unprotected people away from area of spill. Wear appropriate personal protective equipment as specified in Section 8. Spills:

Pick up and place in a suitable container for reclamation or disposal, using a method that does not generate dust.

Section 7 : Handling and Storage

Keep in a tightly closed container, stored in a cool, dry, ventilated area. Protect against physical damage; observe all warnings and precautions listed for the product.

Section 8 : Exposure Controls/Personal Protection

Airborne Exposure Limits: None established.

Ventilation System: A system of local and/or general exhaust is recommended to keep employee exposures as low as possible. Local exhaust ventilation is generally preferred because it can control the emissions of the contaminant at its source, preventing dispersion of it into the general work area. Please refer to the ACGIH document, Industrial Ventilation, A Manual of Recommended Practices,

most recent edition, for details.

Personal Respirators (NIOSH Approved): For conditions of use where exposure to the dust or mist is apparent, a half-face dust/mist respirator may be worn. For emergencies or instances where the exposure levels are not known, use a full-face positive-pressure, air-supplied respirator. **WARNING:** Air-purifying respirators do not protect workers in oxygen-deficient atmospheres.

Skin Protection: Wear impervious protective clothing, including boots, gloves, lab coat, apron or coveralls.

Eye Protection: Use chemical safety goggles. Maintain eye wash fountain and quick-drench facilities in work area.

Clothing: Wear appropriate clothing.

Gloves: impervious gloves or specified by manufacturer

Section 9 : Physical and Chemical Properties

Appearance: white powder

Odor: Odorless.

Color: white

Solubility: Insoluble in water.

Molecular Weight: 79.90

Molecular Formula: TiO₂

Specific Gravity: 3.7-3.9 g/cm³

pH: neutral

% Volatiles by volume @ 21C (70F): 0

Vapor Density (Air=1): No information found.

Vapor Pressure (mm Hg): No information found.

Evaporation Rate (BuAc=1): No information founded

Coefficient of Water/Oil Distribution: Not available

Section 10 : Stability and Reactivity

Stability: Stable under ordinary conditions of use and storage.

Reactivity: Stable at normal temperatures and pressure

Conditions to Avoid: Stable at normal temperatures and pressure

Polymerization: Will not polymerize.

Hazardous Decomposition Products: not occur

Hazardous Polymerization: Will not occur.

Section 11: Toxicological information

Irritation: Inhalation of dust or mist can cause irritation of eyes, nose, throat and lungs.

Eye contact: Powder/particle can cause mechanical irritation.

Skin contact: Can cause irritation if not wash off from skin promptly.

Skin absorption: Not expected to be absorbed through intact skin.

Ingestion: Not expected to produce adverse effects.

Effects of Chronic exposure

Titanium Dioxide: In lifetime inhalation studies of rats, airborne, respirable –size titanium dioxide particles have been shown to cause an increase in lungs tumors at concentrations associated with substantial particle lungs burdens and consequential pulmonary overload and inflammation. The potential for these adverse health effects appears to be closely related the particle size and the amount of exposed surface area that comes into contact with the lung. However, test with other laboratory such as mice and hamsters, indicate that rats are significantly more susceptible to the pulmonary overload

and inflammation that causes lung cancer. Epidemiology studies do not suggest an increase risk of cancer in humans from occupational exposure to titanium dioxide. Titanium dioxide has been characterized by IARC as possible carcinogenic to humans (Group 2B) through inhalation(Not ingestion) It has not been characterized as potential carcinogen by either NTP or OSHA.

Medical conditions Aggravated: Respiratory disorder

Toxicity: Titanium dioxide

Oral	LD 50	>10,000 mg/kg (rate)
Dermal	LD 50	>10,000 mg/kg (rabbit)
Inhalation	LD (4 hr)	>6.8 mg/l (rat)

Section 12: ECOLOGICAL INFORMATION

No data available.

Section 13 : Disposal Considerations

Whatever cannot be saved for recovery or recycling should be managed in an appropriate and approved waste disposal facility. Dispose of container and unused contents in accordance with federal, state and local requirements.

Section 14 : Transport Information

No hazard class in the world

Section 15: REGULATORY INFORMATION

United States Regulatory Information

EU	EINECS (European Inventory of Existing Commercial Chemical substances)	236-675-5
U.S.A	TSCA (TSCA Inventory)	Registered
Australia	AICS (Australia Inventory of Chemical Substances)	Registered
Canada	DSL (Domestic Substance List)	Registered
Japan	ENCS (Existing and New Chemical Substances Inventory)	1-558
Korea	KECI (Korea Existing Chemical Inventory)	Registered
Philippine	PICCS (Inventory of Chemicals and Chemical Substances)	Registered
China	IECSE (Inventory of Existing Chemical Substances in China)	Registered

Section 16: OTHER INFORMATION

Department: Research & Inspection Center of Jiangsu Jinhai Hezhong Titanium Co., Ltd.
